AUDIT ID

BR-2605-ZOSM
prepared by BAAM Studio

Average businesses become *hot and popular* by
building reviews relentlessly.

Excellent businesses become *invisible* because they ignore them.

§ 01 WHY REVIEWS DECIDE WHO WINS

The rules of getting found *changed*.

Five things that are now true about local search — each measured, each cited, none arguable.

01

16–20%

Of Google's Local Pack ranking weight now comes from review signals — up from ~11% five years ago. The share rises every year.

WHITESPARK • 2026 LOCAL RANKING FACTORS

02

81%

Of consumers use Google for local reviews. It's the only major platform whose usage is rising — Yelp, Facebook, and BBB are all declining.

BRIGHTLOCAL • 2026 LOCAL CONSUMER REVIEW SURVEY

03

+25%

Conversion lift from a single 0.1-star rating increase in brick-and-mortar businesses. The 4.0 threshold is binary — 70% of consumers filter by it.

UBERALL • VIA BRIGHTLOCAL

04

5–9%

Revenue increase per 1-star rating bump. Causal, not correlational. Independent businesses see the upper end of this range; medical and legal even higher.

LUCA • HARVARD BUSINESS SCHOOL

05

AI search now reads your reviews.

ChatGPT, Perplexity, Claude, and Google's AI Overviews pull directly from review content and ratings to answer "best [service] near me" questions. Without strong reviews, AI will literally not mention you when a customer asks.

GOOGLE TRANSPARENCY REPORT • 2024-2026

*Excellence isn't enough anymore. **Visibility** decides who walks
through your door.*

§ 02 YOUR CURRENT SNAPSHOT

Where customers *actually look* for you.

Free tier covers Google — by itself ~81% of local consumer reach. The paid audit adds Yelp, Facebook.

PLATFORM		RATING	REVIEWS	LAST REVIEW	PROFILE HEALTH
G Google Business Profile PRIMARY · 81% OF CONSUMER REACH	★★★★★ 5.0	73	3 months ago	80% COMPLETE	

Yelp · Facebook · Zocdoc · Healthgrades — included in the paid audit.

What this means

Your last Google review was 84 days ago — search and AI both interpret silence as decline. Your weakest area is the past 30 days — that's the window Google's algorithm watches most closely.

§ 03 YOUR BAAM REVIEW SCORE

37/100

GRADE · TIER F

F

Effectively invisible. Search and AI are skipping you entirely.

METHODOLOGY

Every score is measured against published vertical benchmarks. **Rating Quality** uses a non-linear curve that rewards the 4.0★ threshold (where 70% of consumers filter). **Review Volume** compares total count to the median for your vertical. **Velocity** scores use BAAM Review Research healthy-pace bands. The black tick marks on each bar show where these standards sit on the 0–100 scale. [Full methodology →](#)

§ 03.5 · THE FORECAST

Your score in *six months* if you do nothing.

Three forces work against a business that stops collecting reviews: velocity decay (mechanical), ranking decline (Sterling Sky), and competitors compounding the gap. This projection holds your current effort constant — and holds your competitors at their measured pace.

6-MONTH SCORE 37 → 37 Score holds — but the gap to top competitors widens with every silent month.	RANKING POSITION Hold position Estimated Local Pack drop · competitors compounding the gap	REVENUE COST \$0 6-month opportunity cost · vertical per-review value × missed reviews
---	---	---

Your *F* in context — and what it would take to climb.

SCORE RANGE	GRADE	WHAT IT MEANS IN PLAIN ENGLISH
90 - 100	A	Winning your local market. Reviews are a competitive moat.
75 - 89	B	Strong — but losing ground to top competitors month over month.
60 - 74	C	Visible — but customers are choosing competitors with stronger reviews.
40 - 59	D	Bleeding customers to better-reviewed competitors every week.
0 - 39	F	Effectively invisible. Search and AI are skipping you entirely.

YOU • 37

You've seen *where you stand.*
Now see what it costs — and what to do.

Section 4 · Industry Benchmarks — your vertical's per-review dollar value, healthy velocity bands, what "top 25%" actually looks like.

Section 5 · Competitor Comparison — your 5 closest competitors, side-by-side, with the gap quantified.

Section 6 · 12-Month Action Plan — five concrete moves, ranked by impact, with the dollar value of each.

Sections 1–3 · Multi-platform extension — Yelp, Facebook, Zocdoc, Healthgrades scoring blended in.

Section 7 · Appendix — the full reference tables.

*Every grade you saw in this report is honest about the data we had.
The paid audit shows you the full picture.*
